LOT 10 | Ankole Heifer out of Sebastiaan & Birungi , ICT Lando

BBAN 23-37

AKARUNGI, meaning one of beauty and goodness, truly lives up to her name, displaying an elegant, feminine presence combined with strong maternal characteristics. She carries the unmistakable influence of her sire, Sebastiaan, a record-breaking bull renowned for exceptional genetics, with progeny already achieving horn lengths of up to 50 inches.

On the dam side, she descends from Birungi, an influential dam in elite pedigrees carrying the BA1, BA2, and BA3 bloodlines, further strengthening her genetic value.

BBAN 23-49

NYAKWEZI, means “blessed by the moon” – a symbol of moonlit beauty, referring to the white patch on her forehead. She is graceful, striking, and truly regal in presence. She carries the proven influence of her sire, Google, known for producing exceptional progeny, with clear potential for impressive horn development.

On the dam side, she traces back to strong maternal genetics, combining femininity, balance, and the qualities sought after in elite Ankole breeding programs. A heifer with style, pedigree, and all the ingredients to become a remarkable future cow.

BBAN 24-13

NINSIIMA translates to “I am grateful” or “blessed” — a fitting name for this heifer that combines feminine softness, elegance, and exceptional genetic value. She carries a soft white blaze on her forehead, echoing her dam, along with distinctive stockings and brisket markings inherited from her sire, Sebastiaan.

A living reflection of her bloodline - written not only in pedigree, but in pattern. A young female with excellent presence, strong pedigree, and promising future potential.

A herd of longhorn cattle is shown in a field of tall, golden-brown grass. The central focus is a large black and white longhorn with massive, curved horns. To its right is a reddish-brown longhorn, and to its left is a smaller brown and white one. In the background, there are more cattle and a line of trees under a clear blue sky with several white birds in flight.
